

SHAMBHAVI NANDINI

Project Manager | Service Delivery Manager | IT Operations Manager | SAP Cloud Services

Pune, India | +91 9741699318 | nandinishambhavi@gmail.com

Service delivery and IT operations leader with 12 years of experience across SAP ECS, SAP HXM/SuccessFactors, cloud operations, and enterprise support. Proven record managing 250+ resources, governing SLA-driven delivery, stabilizing incident/event/service request functions, and leading customer-facing escalations, renewals, operational reviews, automation, and continuous improvement. Strong fit for Project Manager, Service Delivery Manager, IT Manager, and cloud/SAP operations leadership roles requiring disciplined governance, stakeholder confidence, risk control, and measurable service outcomes.

Core Strengths

Delivery Leadership	Service delivery management, project governance, SLA/KPI management, risk and issue management, stakeholder reporting, operational reviews, resource planning
ITSM and Operations	Incident, event, change, service request, escalation, RCA, disaster recovery drills, release coordination, knowledge management, service transition
Technology	SAP ECS, SAP HXM/SuccessFactors, SAP Basis operations, Linux, Azure, AWS, GCP exposure, monitoring and cloud operations
Tools	ServiceNow, HPSM, ManageEngine, Jira, Splunk, Slack, Microsoft 365, Power BI, Excel dashboards

Selected Impact

- Managed SAP ECS delivery across Incident and Event Management, Service Request Fulfillment, and Build verticals for 250+ resources while maintaining Green RAG and SLA stability.
- Improved MTTR by 20% through proactive ticket analysis, Jira dashboards, knowledge articles, and backlog governance.
- Maintained a zero-escalation record for more than one year in Build operations through governance discipline and structured risk reviews.
- Improved CSAT by 20% by designing proactive service plans and strengthening customer confidence after renewal activities.
- Supported ECS contract renewal and service expansion activities through requirement gathering, billing simulations, onsite workshops, backlog reduction, and operational readiness.

Professional Experience

Cloud Service Operations Associate Manager - SAP ECS | Accenture Solutions Pvt. Ltd., Pune | Jun 2022 - Present

- Own end-to-end client delivery for SAP ECS accounts, including operations governance, SLA adherence, customer lifecycle management, and strategic service reviews.
- Lead 250+ resources across incident, event, service request, and build teams; stabilized SRF, Build, and IMEM verticals while sustaining delivery health and Green RAG status.
- Act as de-escalation point for incidents, service requests, delivery gaps, change risks, high-availability planning, and disaster recovery drill coordination.
- Implemented proactive ticket analysis, knowledge articles, Jira dashboards, and Epic/backlog workflows, reducing MTTR by 20% and improving delivery transparency.
- Created weekly lead-level governance forums with SAP and Accenture stakeholders to resolve operational risks, compliance issues, and 3x peak build volumes.
- Supported ECS renewal RFP and service expansion work by gathering requirements, running billing simulations, attending onsite workshops, and enabling additional revenue through backlog reduction.

IT Operations Escalation Lead - SAP HXM | Accenture Solutions Pvt. Ltd., Bengaluru | Dec 2020 - May 2022

- Built and led a 30+ member Production Operations team supporting SAP HXM/SuccessFactors services, with mentoring and skill programs that improved retention by more than 35%.
- Standardized client reporting, SLA tracking, KPI governance, and escalation routines for SAP SuccessFactors accounts.
- Strengthened customer relationship and expectation management by serving as operational point of contact for escalations and critical service risks.
- Converted repetitive activities into automation opportunities and improved delivery efficiency across production operations workflows.

IT Operations Analyst / Senior Analyst - SAP HXM | Accenture Solutions Pvt. Ltd., Bengaluru | Sep 2017 - Nov 2020

- Managed SAP SuccessFactors HXM Suite configuration support, incident triage, partner delivery coordination, and customer service outcomes, reducing SLA breaches by 20%.
- Defined Focus150 customer escalation guidelines, critical-situation roadmap, and data-led operational reporting for leadership decisions.
- Supported daily reports, audits, corrective actions, and service improvements that increased operations efficiency by 35%.
- Owned vendor and CSM relationships during escalated situations and supported transition from ManageEngine to ServiceNow.

- Managed impact and risk assessment for 500+ changes and weekly releases across datacenters to protect contractual obligations and performance metrics.

IT Operations Associate - SAP HXM Integration | Accenture Solutions Pvt. Ltd., Bengaluru | Dec 2015 - Aug 2017

- Supported SAP SuccessFactors partner delivery, HCM product support, configuration activities, and RMK site design for SAP partners.
- Served as shift lead across regions for queue management and incident triage while maintaining SLA stability and improving resolution timelines by 20%.

Technical Service Desk Engineer | Hewlett Packard for Adecco India, Bengaluru | Jul 2014 - Nov 2015

- Supported offshore desktop operations and application maintenance for the E.ON program across users in 30 countries using RDP and Cisco AnyConnect.
- Served as SPOC for call, email, and chat support; sustained more than 90% customer satisfaction through timely issue handling.
- Performed RCA on recurring issues and authored knowledge articles, improving first-call resolution by 10-15%.
